

II. Get Info

A. Names

1. Label the six *Great Lakes* in the picture below.

- Click on the Names site to check your answers.
- Click "Back" in the top bar of your web browser until you get back to the OAR Great Lakes Get Info site.

B. Location

- Use a ruler and the map scale to measure distance.

1. Draw a straight line from your city to the intersection (meeting place) of lakes Superior, Michigan, and Huron.
2. About how many kilometers are the Great Lakes from your house? _____
3. How far from you are the Great Lakes in miles?
One mile = 1.6 km.

C. Alien Introductions

- Click on the "Foreign Species" site.
- Scroll down to the "Species Introductions" section.
- Read the section and answer the following questions.

1. What do you think an "alien" or "foreign" species is?

2. What are some beneficial (helpful) effects on an area when an animal or plant from another area is introduced?

3. What are some harmful effects on an area when an animal or plant from another area is introduced?

- Click "Back" until you get back to the OAR Great Lakes main screen.

- Click "Gather Data".
